

### REMARKS/ARGUMENTS

The Notice to File Missing Parts mailed February 25, 2004 required replacement drawings. The replacement drawings are enclosed.

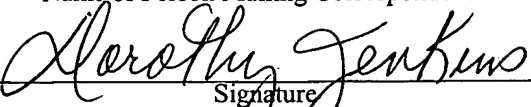

A typographical error was seen in original Fig. 2 in that the arrows at the left of Fig. 2 bore the numbers 2-2, which was in error since an end view of an object could not have the same Figure number as the side view drawing itself. Fig. 2 has herein been corrected to indicate that Fig. 3 is a view of the end of Fig. 2. A corrected replacement sheet is enclosed with Figs. 1 and 2 on it and wherein the arrows at the left of Fig. 2 are numbered 3-3.

The specification has been correspondingly amended herein. It is submitted that correcting the drawings to correct a obvious error is still in compliance with the requirement to submit reproducible quality drawings and will make the published application accurate and useful.

In addition, with Figs 1 and 2 is enclosed, containing another sheet with the error in numbering of the arrows in Fig. 2 as originally filed. It is believed that the incorrect sheet should not be used. However, if the application should be published with the drawings numbered as originally filed, including correctable errors, then use the incorrect enclosed drawing sheet for the publication, but please then use the corrected sheet with corrected Figure 2 as the drawing for further prosecution of this application.
